

PIFIS

University: Eötvös Loránd University

Program: MSc in Chemistry

Preparatory Price: 5000€ in total

Entry requirements to preparatory program: English level: min. A2,
Average high school grades

MSc Description: The goal of this program is to give an advanced level knowledge in the major fields of analytical, inorganic, organic and physical chemistry. The program involves obligatory lectures and laboratory practices in all four fields. (Semi)elective courses offer the opportunity of tuning the program content according to interest.

This program is recommended to applicants who are willing to organize their own course schedule. A good background in BSc level chemistry enables the student to focus on his/her topic of interest right from the beginning. Those who are less knowledgeable in basic chemistry must complete resuming courses.

In the frame of the program research experience can be gained in at least one main discipline of chemistry. Skill can be acquired in developing and applying ideas within a research project.

Entry requirements to MSc program: Bachelor-level degree
Minimum level of language proficiency (A1-C2): B2
Passing the oral entrance exam
CV and Motivation Letter
Medical certificate
