Entrance exam fee 120 EUR

Description of the program: The aim of the programme is to train psychology professionals who have mastered the theories and methods of psychological science on an advanced level, are proficient in the various subfields of psychology, possess the skills and techniques of psychology as a profession and are able to apply these to help individuals, groups or organizations develop and improve.

Career prospects The programme's purpose is to train psychologists, who are apprised of the different fields of psychology. They know the profession's methods and instruments, and are able to use them in order to get acquainted with individuals, groups or organisations, and develop them if necessary. They possess adequate knowledge to continue their studies in a doctoral programme.
