Average high school grades

BA Description: The goal of this programme is to offer to students the opportunity to develop specialized knowledge in international politics, security studies, EU politics, ethnic conflict, global justice and human rights. It enables them to understand and analyze complex political and social dynamics that go beyond state borders and cultural boundaries. The structure of the programme offers to students the opportunity to choose from a wide range of elective seminars, following introductory courses in the first academic year.

This programme is recommended to applicants who are interested in social sciences and politics, and are particularly keen to understand how the modern World works, also how globalization has affected our societies.

We encourage our students to work independently and to solve tasks in teams. We rely on modern methodologies – including simulations – and we believe that adaptability and self-reflexivity are crucial in today's fast changing World. Our aim is to give our students skills that they can be readily used wherever they seek employment after graduation.

Entry requirements to BA program: Certificate of Secondary Education, (at least one subject in high level)

Minimum level of language proficiency (A1-C2): B2
