Description of the program: The MA program runs with two specializations.

The Film Theory specialization offers a general overview of the history and theory of film, as well as critical understanding of the mechanisms and genres of popular film culture, with an emphasis on academic and critical writing.

The Filmmaking specialization allows students to get hands-on experience in the various creative areas of production process (screenwriting, directing, editing, cinematography, production), and produce a collaborative thesis project.

Career prospects Film- and communication teachers, film-critics, editors, experts, positions at film and media archives or different national institutions and boards, line producers, screenwriters, cameramans.
