

PIFIS

**University:** Eötvös Loránd University

**Program:** MSc in Biology

**Preparatory Price:** 5000€ in total

**Entry requirements to preparatory program:** English level: min. A2,  
Average high school grades

**MSc Description:** Students participate in intensive advanced and high level courses in the different fields of biology, which are the most relevant for their specialization, to make them informed about the recent developments and frontline problems. Some 60 % of time is practical hours (spent on laboratory/field practice and on research) ensuring knowledge of state of the art methods. The curriculum is assembled from intensive advanced level courses on the theoretical aspects of selected disciplines and special seminar series on problems in a narrower field of science. The program also involves practical courses and a supervised research activity, which is needed for the preparation of the “M.Sc. Thesis”. In the first two semesters emphasis is on theory and basic laboratory or field practice. The third and the fourth semesters are devoted to research and preparation of thesis. The training medium is English so students can gain a better command of the academic English in different fields of biology.

**Entry requirements to MSc program:** Bachelor-level degree  
Minimum level of language proficiency (A1-C2): B2  
Passing the oral entrance exam  
CV and Motivation Letter  
Letter of recommendation  
Medical certificate
