University: Budapest Business School – University of Applied Sciences

Program: MSc in International Economy and Business

Preparatory Price: 5500€ in total

Entry requirements to preparatory program: English level: min. A1,
Good high school grades

MSc Description: The International Economics and Business program aims to train professionals capable of analysing the global world economy, interpreting international trends, and effectively conducting and managing international negotiations. The investment incentive and management profile of the International Economics and Business major ensures that students will acquire thorough and up-to-date knowledge in the preparation and implementation of foreign direct investments (FDI).

Students graduating with a Masters degree in International Economics and Business will:

- Receive knowledge that is unique in Hungary, can be put into practice immediately and for which there is constant demand from employers;
- Be prepared for the successful management of the international economic relations and investments of companies, institutions and local governments, and for effective business communication in several languages;
- Be able to perform expert, analyst and managerial tasks within the framework of the Hungarian state administration or at international organizations.

Entry requirements to MSc program: Min. 785 points on the final TOEIC exam
Passing the oral entrance exam
BSc/BA diploma from a relevant field
