

PIFIS

**University:** Budapest Metropolitan University

**Program:** BA in Environmental Design

**Preparatory Price:** 5000€ in total

**Entry requirements to preparatory program:** English level: min. A1,  
Average high school grades

**BA Description:** The Environmental Design bachelor's program equips students with the skills and knowledge that allow them to design practical and sophisticated spaces and objects, both when working individually and as a creative associate.

METU's teaching methods put great emphasis on personal contact and consultation, and practical workshops are an important pillar of the program.

In this program you will study:

- Exploration of the links between mankind and environment
- International trends in built environment
- Ecological approach
- Environment- and health-conscious design and sustainable solutions
- Complex design skills through practical and conceptual methods
- Involvement in the recent technologies and materials
- Building prototypes in our in-house workshop led by experts, design project modelling
- Acquiring skills and knowledge in interior and object design during real-life projects at our internship places

**Entry requirements to BA program:** Min. 605 points on the final TOEIC exam  
Portfolio of previous works
