the program: High school diploma and transcript

CV

Motivation letter

Description of the program: The aim of the programme is to train professionals in the theoretical foundations and basic methods of psychology and to give insights into the applied branches of the discipline, such as skills and techniques that can be used to measure, explore and develop individuals, groups or organizations. Students will obtain an integrated knowledge of education, communication, socialization, learning and human development. It is also aimed to provide modern knowledge and a sense of vocation that support further studies in any psychology MA programme.
