

PIFIS

University: Eötvös Loránd University

Program: MSc in Physics

Preparatory Price: 5000€ in total

Entry requirements to preparatory program: English level: min. A2,
Average high school grades

MSc Description: The goal of this program is to train professional physicists who have a broad overview of contemporary physics and are able to join research on their specialized fields.

This program is recommended to applicants who already have their BSc in physics and want to be research physicists by deepening their knowledge.

This program enables students to have broad background in the major fields of physics (atomic and molecular physics, condensed matter physics, nuclear physics, particle physics, statistical physics) and being specialized in selected areas (astrophysics, atomic and molecular physics, nuclear and heavy ion physics, biophysics, condensed matter physics, computational physics, environmental physics, particle physics, statistical physics and complex system).

Entry requirements to MSc program: Bachelor-level degree
Minimum level of language proficiency (A1-C2): B2

Passing the oral entrance exam

CV and Motivation Letter

Letter of recommendation

Medical certificate
